

Comsen Powerhead C1 500

The C1 500 is the evolved budget version of the C1 100 pole mounted model. Customers now select this model when they want to match with existing C1 100 assets and require only 1 or 2 outlets. The 15amp IP66 outlets are fitted to the outside. A 4-pole weatherproof IP66 enclosure is fitted to the half pedestal. The enclosure allows room for 2x16amp RCBO's and 2x Single pole meters. The powerhead is connected by a cast alloy pipe cone straight onto your existing 60mm OD water pipe or our powder-coated 500mm aluminium pipe. The pipe cone and socket set grub screws are included in the price.

Features:

- Impact and UV resistant non corrosive PVC body with a 20 year guarantee
- Proven in the field under the harshest weather conditions
- Design provides resistance to vandalism
- Proven watertight with RCBO's fitted inside the weatherproof, IP66 rated enclosure
- Access for electricians to all 15amp power outlets and electronics
- Sturdy powder coated cast alloy pipe cone base for easy connection to posts
- Quality electrical components and safety switches providing reliability with a 5 year warranty, 3 years for LED's
- Colours designed to blend with the outdoor environment
- All parts moulded and certified to ISO quality manufacturing standards in Australia
- Design and electronics fully compliant to the Australian/ New Zealand Standard – Electrical Installations (Caravan Parks) AS/NZS 3001:2008
- All spare parts available and listed on www.comsen.com.au

Available options:

- Add a Light – 6000K LED with Diffuser
- Add a PE cell to control light
- Add up to 2 approved kWh Meters for user pay power
- Add Locks to the enclosure to prevent unauthorised access
- TV outlets
- Phone outlets
- Data outlets
- Night reflective tape for visibility
- Aluminum Mounting Pole powder coated

Comsen custom Australian made service pillars provides power, light, water, television, phone, data, meters and internet access solutions for any Caravan Park.
