

Comsen EXTREME MIX 700 Pontoon

This ultra-modern ecofriendly unit will aesthetically compliment any private pontoon project. The EXTREME provides the essential services including power, water and light. The Pontoon units are designed for the Australian market from marine grade aluminum anodised to 25 microns for extreme durability.

A robust lockable 15amp 56IP rated switched power outlet is included with RCD protection coming from the home or office circuit. Power can be controlled at the main switchboard or at the jetty.

One switched outlet, plus 1 tap on the back of the pedestal, and a Low Voltage LED light are standard features. A photo light sensor PE cell to control turning the light on and off automatically can be added for \$49+GST

Features:

- Extremely strong, salt and sea air corrosive resistant marine grade anodized aluminum to 25 microns
- Design provides resistance to vandalism
- All anodised aluminum parts guaranteed for 20 years
- Proven in the field under the harshest Australian weather conditions
- Proven watertight with IP66 enclosure
- Outlets have spring loaded
- Safe and easy side panel removal for electricians to access all services
- Quality electrical components providing reliability with a 5- year warranty, 3 years with LED
- EXTREME incorporates a cost efficient, maintenance free and super long life LED Light
- The non-intrusive LED lighting improves security and safety for night time activity
- Design and electronics fully compliant to the Australian/ New Zealand Standard – Electrical Installations (Marinas and recreational boats) AS/NZS 3004.1:2008
- All spare parts available and listed on www.comsen.com.au

Comsen custom Australian made service pillars provides power, light, water, television, phone, data, meters and internet access solutions for any Jetty or Marina.
